Self-Pleasure

by [MiaQc](#)

Summary

Microfic. In the year 3000, Alana, 18 years old, pleases herself and masturbates. That's the plot.

- A translation of [Plaisir à soi-même](#) by [MiaQc](#)

My name is Alana. I live in the year 3000. Even though we are rebuilding the world since the Great Disaster, everything related to sexuality is quite taboo. Of course, we have classes on sexuality. I know all the intimate parts of my body, but in the year 3000, getting laid is impossible. Sex is for reproduction first, for pleasure between lovers second. So we have to find the ideal person, court, marry, and only then we can move on to sex. However, during my adventure in 1990, I discovered that people are so much freer sexually and that masturbation is something that exists. And so, despite PJ's reluctance, I'm going to indulge myself and masturbate today. I am on my bed, naked, and I begin to touch myself. A shiver runs through my body as I massage my breasts and nipples. That's pleasant. I'm going to take care of my pussy right away. As soon as I insert a finger inside, my body jumps with surprise and pleasure. I circle my inner walls and feel my finger getting wet. I gag my mouth with my other hand to keep from moaning too loudly. I wouldn't want anyone to hear me, because I live with other people in a futuristic building. Only married couples have their own houses. I squeeze my G-spot repeatedly. It doesn't take long before I cum. I let out a long, muffled moan. I pull my finger out of my pussy. It's all sticky. I take my other hand away from my mouth. It was a more than pleasant experience. I hear PJ's voice lecturing me. He tells me it's taboo, inappropriate, etc.

"Mute On, PJ!"

My computer companion is silent. I smile. I can't wait to do it again. Too bad there are no sex toys in the year 3000. I would have tried a vibrator.
